**IV. One Faculty Member to serve on [Campus Facilities Committee](#)**

Name	Division	Department/Area	Status
Mark Landefeld	PE & Athletics	Kinesiology & Athletics	Part-time
<p>As an Intercollegiate Athletics Head Coach with a history in both indoor (badminton) and outdoor (soccer) sports, I have visited over two dozen community college campuses. This has provided a great perspective on what facilities our peer institutions have built.</p> <p>I've been able to see interesting innovations such as a meeting room on a second-floor of a gymnasium placed in a manner to convert into a "suite" for events. Cabrillo College expanded a stadium press box to include coaches' offices which have tremendous appeal to staff as well as providing a great impression to recruits.</p> <p>I've seen how "third spaces" present communal areas where our students gather and socialize. These spaces may as a lunch spot, a meeting place, a spot for reading and in all these cases, they are critical in the development of campus culture and community. It is important to visualize our campuses as more than buildings connected to parking lots. If education is to be the transformative force in our students lives, they need a sense of place and time that allows the student experience to "breathe" in them. Creating comfortable, inclusive space on campus is important to promote a campus that can support D.E.I. goals.</p>
