CRN 26030, Math 2A-07Z, Differential Equations Academic Term: Fall 2020
Instructor: Bijan Sadeghi E-mail: sadeghibijan@fhda.edu
TTh 4:00p.m.—6:15p.m.
Office hours: TTh 12:20-1:30 p.m., zoom: ID on Canvas

Textbook: A First Course in Differential Equations with Modeling Applications, 10th edition, by Dennis G. Zill, ISBN-13-978-1-111-82705-2.
Your textbook should include a WebAssign access code. If not, you must purchase one separately.
Required Materials: The textbook, a graphing calculator (TI – 83 or 84 is preferred if you are buying a new calculator. If you already have a TI-82, 85 or 86, you can use that.)
Prerequisite: Math 1D (with a grade of C of better).
Advisory: English Writing 211 and Reding 211 (or Language Arts 211), or English as a Second Language 272 and 273.
Attendance: You are expected to attend all class lectures in their entirety. You may be dropped from the class if you are absent two times. Dropping or withdrawal from the class is the students' responsibility. A student discontinues coming to class and does not drop will get an "F" grade.
Cheating: Cheating is forbidden. There shall be no talking to, or unauthorized helping of other students, or copying from or looking at another student's paper during exams. A class/course grade of "F" will be given for any of the above infractions.

Students with Disabilities

Students with disabilities who qualify for academic accommodations must provide a notification from the Disability Support Services (DSS) and discuss specific needs with the instructor, preferably during the first two weeks of class. Disability Support Service determines accommodations based on appropriate documentation of disabilities. DSS is located in Student Community Services building, room 141 and their phone number is (408) 864-875

Homework: All of the homework will be done online. Once you have your WebAssign access code, go to www.webassign.net, log-in and register, and enter the **Class Code:**
deanza 4250 2251

Exams: Two exams will be given during the quarter.
Final Exam: A two-hour comprehensive final exam will be given on Thursday, December 8 (4:00 – 6: 00p.m). This is a must exam. A grade of "F" will be assigned to those who miss the final exam.

Grade:

Footnote Information

MATH-2A-07Z: TI-83 Plus or TI-84 Plus calculator recommended.This is an online class that meets each week on scheduled days and times as noted in the class listing. Students must have access to a computer, the internet and an individual email address. Most De Anza classes will use the Canvas course management system. We recommend a laptop or desktop computer to successfully complete the course; a tablet or phone may not be adequate for all assignments and tests. Information about Canvas and Online Education Orientation can be found in Canvas on the Student Resources page: https://deanza.instructure.com/courses/3382. The Student Online Resources hub with extensive information and tips can be found at deanza.edu/online-ed/students/remotelearning.

Student Learning Outcome(s):

*Construct and evaluate differential equation models to solve application problems.
*Classify, solve and analyze differential equation problems by applying appropriate techniques and theory.
