

Math 1A De Anza College, Cupertino. Quarter- Summer 2024

Course: Math – D001A13– Calculus 1 CRN # 13658
 Time- MTWTh, 3:00 p.m. to 5:15 p.m. Room- DA-MLC 260
 Texts and (1) Calculus Early Transcendentals, 9th Edition. Author: James Stewart
 Equipment: (2) Graphing Calculator. TI-83 plus/ TI 84 plus Calculator.
 Instructor: H. K. SHAH. Email: shahhemendra@fhda.edu
 Office hours: MW- 2:20 to 2:45 pm, by appointment

Web Assign course name: CRN 13658, Calculus 1, Math 1A, Summer 2024, 3:00 pm to 5:15 pm class, HKSHAH, De Anza College, section 13.

This WebAssign course is integrated in CANVAS. So, students are doing homework through CANVAS, not on WebAssign.

All the exams are show your work type exams, close book/notebook in the class during face-to-face meetings. Mobile phone is not allowed. Final exam is comprehensive and covers all the chapters 2 to 4.

Attendance: Students are expected to attend all class meetings without tardy. Students with three recorded absences will be dropped from the course. If student decides to drop the course, it is his/her responsibility to drop the course. Students disappearing get F grade. There are 20 points for attendance, for each absence 5 points will be deducted.

Student Learning Outcome (SLO) statement: (1) Analyze and synthesize the concepts of limits, continuity, and differentiation from a graphical, numerical, analytical, and verbal approach, using correct notation and mathematical precision. (2) Evaluate the behavior of graphs in the context of limits, continuity, and differentiability. (3) Recognize, diagnose, and decide on the appropriate method for solving applied real-world problems in optimization, related rates, and numerical approximation.

Course Objectives: I shall cover chapters 2 to 4, and partially chapter 10. Chapter 1 covers the topics students already have studied in Pre-Calculus. New topics we are going to cover are Limits and Continuity, Differentiation, applications of Differentiation, antiderivatives, and parametric equations. It is an intensive course, needing 6 to 8 hours of study time per week outside the class during regular quarters, for summer quarters it will be twice the time . We are going to use TI-83/84 plus graphing calculator intensively.

Homework: Students will do homework through CANVAS using Enhanced Web Assign Program. It is integrated in our CANVAS course. Late homework will not be accepted for grading purposes.

Examinations: There will be three midterm tests, each of one hour, and three quizzes each of 25-30 minutes. There will be no make-up for missed exams/final or quizzes. If only one test is missed due to unavoidable circumstance, and the instructor is notified in advance or quickly; the final exam percentage will be replaced as missed test percent provided you scored 85/130 in final exam. If you are not absent from any exam, the final exam percent will replace your lowest exam score (if it helps), provided your final exam score is at least 85/130. A comprehensive final examination of two hours will be given on Thursday, 8th August 2024, from 3:00 to 5:15 pm in our classroom. Students absent from the final exam will get F grade.

Disruptive behavior: De Anza College will enforce all policies and procedures set forth in the *Standards of Students Conduct* (refer catalogue). Any student disrupting a class may be asked to leave that class. Administrative follow-up may result. **Cell phones are not allowed during all the examinations.**

Academic Integrity: All exams are closed book and notebooks. You can use printed pages of formula Sheets I have provided on CANVAS. It is assumed that all students will pursue their studies with integrity and honesty; however, all students should know that incidents of academic dishonesty like cheating and plagiarism are taken very seriously. Students involved in cheating will be dropped and get F for the course. Further disciplinary action by administration will follow.

Grades:

Grade scale	Points range	Percentage range	Examination	points
A+ 4.0	476 to 500	95 + to 100 %	Three Tests	3x75 = 225
A 4.0	456 to 475	91 + to 95 %	Three Quizzes	3x25 = 75
A_ 3.7	436 to 455	87+ to 91 %	Homework	50
B+ 3.3	416 to 435	83+ to 87 %	Class attendance	20
B 3.0	396 to 415	79+ to 83 %	Final examination	<u>130</u>
B_ 2.7	376 to 395	75+ 79 %	Total points	500
C+ 2.3	351 to 375	70+ 75 %		
C 2.0	326 to 350	65+ to 70 %		
D+ 1.3	306 to 325	61+ to 65 %		
D 1.0	296 to 305	59+ to 61 %		
D_ 0.7	276 to 295	55+ 59 %		
F 0.0	0 to 275	0 to 55 %
